About Fews

Fews are the leading provider of event marquees, temporary buildings, and structures in the UK.

As the leading event marquee hire company and supplier of temporary structures, Fews are proud to provide turnkey-solutions to a wide range of clientele.

Focussing on:

- ◆ Impeccable service
- ◆ Perfect presentation
- ◆ Sustainability
- ◆ Health and safety

“We focus on quality and aim to be the very best”

Ian Few
Managing Director

An unrivalled level of service

Expert advice

Our service starts the moment the conversation with you starts.

We listen carefully to your requirements and concerns. We can then apply our experience and expertise to offer the right solution from our extensive range of products and accessories.

We provide high quality solutions to the most complex of problems including building in tight spaces, specific insulation needs, ground fixings and access. Site visits are free and without obligation.

Matt Porter
Head of Sales

Sales Manager

Jack Moore
Sales Assistant

Fews offer a methodical and comprehensive approach to the service we offer our clients.

Turnkey solutions

We are experts in the temporary structures industry, and we can offer full turnkey solutions for a variety of applications.

Beyond the structure, we can include:

- ◆ Lighting, heating, air conditioning
- ◆ Power distribution
- ◆ Professional end-to-end management

Just pick up the key. That's it!

Health & safety

Our teams work to provide a seamless and safe working environment for everyone.

- ◆ We deliver using our own fleet of vehicles
- ◆ Well-trained rigging crews
- ◆ Extensive accreditations
- ◆ Commitment to staff, client and public welfare
- ◆ Method statements for different structure types
- ◆ Risk assessments for hazardous activities
- ◆ Documented inspection of our equipment

You can be sure that our tried and tested systems can be relied upon.

Nick Gray
Health & Safety Officer

Project management

Fews have a team of project managers ready to take you through every stage of the process. From the initial enquiry to handover, a single point of contact will ensure that every detail is given the attention it deserves.

- ◆ Experienced experts in the field
- ◆ Dedicated to each project
- ◆ Detailed management
- ◆ Professional and prompt handover

Heights

3m, 4m

Length:

Unlimited in 5m increments

Wall finishes:

Solid glass panels, plastic ABS panels, soft white or clear panoramic PVC walls.

Case Study

Frasers Festival Marquees

At an exciting time of investment and growth, our client celebrated it's 40 year anniversary, by bringing together brands and people for the ultimate celebration using Few's festival structures.

Few's provided five structures which framed the activities and displays throughout the site which included a 7km obstacle course race, the display of premium brands and a series of acts on the main stage.

Premium Brand Display

A 20 metre x 20 metre premium marquee on a 3 metre leg was the home of the Premium Brand Display. White tack off linings provided an "in-store" feel with glass doors, access ramps and handrails.

The structure was built on a raised deck level cassette floor system to cope with the uneven surfaces.

VIP Lounge

15 metre x 15 metre premium marquee structure on a 3 metre leg with white tack off linings.

The Entrance Marquee

The entrance marquee consisted of a 20 metre x 15 metre premium marquee on a 3 metre leg with clear gable and clear PVC roof.

Bag Drop Marquee

For the storage of luggage, bags and clothing we built a 20 metre x 25 metre premium marquee on a 3 metre leg with white PVC walls and roof.

6 points of sustainability

Few are committed to environmental sustainability, and it forms part of our long-term planning.

Wherever possible we look for ways to adopt sustainable working practices. We generate our own power through Biomass and Solar, invest in the latest efficient vehicles and machinery, and recycle carpets and other goods consumed in the process of running the business.

We divide our approach into six key areas and ensure that each is maintained and reviewed.

- ◆ Biomass Heat Generation
- ◆ Solar Powered Energy Generation
- ◆ Energy Efficient Structures
- ◆ Sustainable Processes
- ◆ Vehicle Fleet
- ◆ Recycling
